BENEFITS THAT WILL WIN YOU OVER GERMAN ENGINEERING OFFERS PEACE OF MIND

Elitetec offers an extensive range of products for windows and doors providing you with just the right solution for all your requirements, replacement and new construction markets alike. Window solutions matching your requirements are available from qualified window specialists, fabricated with modern machines by trained staff to ensure a quality product.

THESE ADVANTAGES WILL CONVINCING YOU

Thermal insulation

Multi-chamber technology combined with special insulated glass ensures that the temperature in the building remains constant, saving you money on energy costs.

Security

The window profiles are optimally designed to use special security locks and strikers, as well as intrusion resistant measures.

Sealing

Wide gasket overlap provides optimum protection against dust, wind and rain. This ensures that you feel comfortable.

Easy to clean

The smooth surface of the window profile does not attract dirt and can be quickly and easily cleaned, leaving time for the things that matter.

Noise protection

REHAU's uPVC window profiles combined with double glazing leaves external noise outside so that you can enjoy a quiet life.

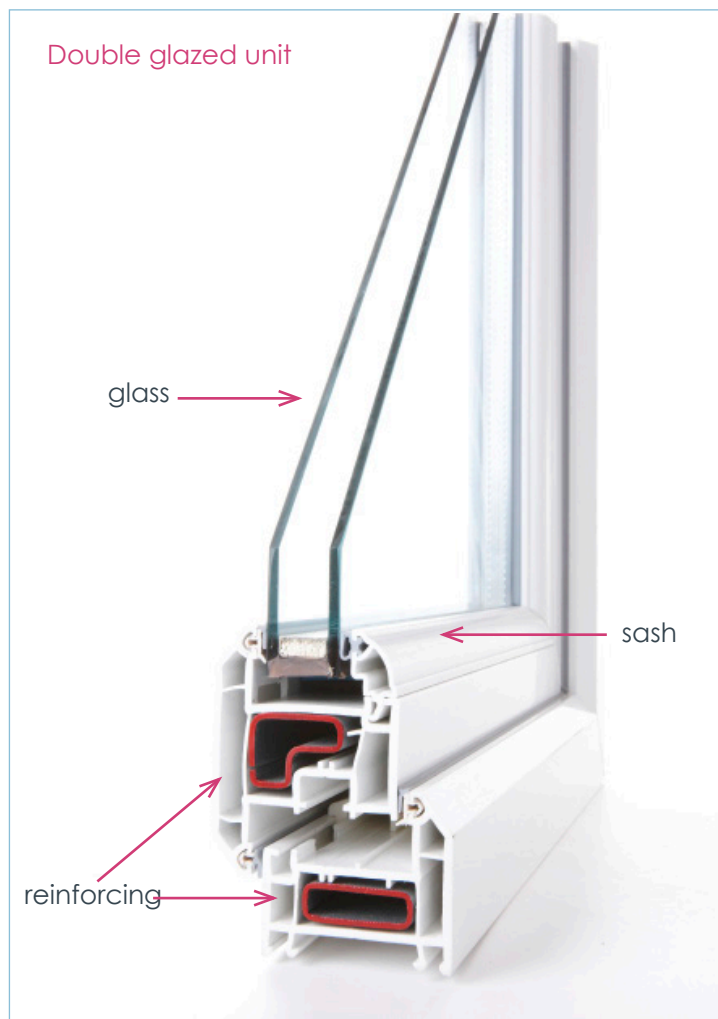

Highly durable, UV stable

REHAU profiles are made from our high performance formula RAU-PVC 1476 to match the most trying climate conditions, such as extreme temperatures or salt-laden, corrosive sea air. RAU-PVC 1476 is impact modified and weather rated to the most onerous requirements within BS EN 12608 – Severe rating. This means they are durable, UV stable and will keep their looks for many years.

ELITETEC uPVC WINDOWS AND DOORS

THE PREMIUM RANGE FOR ALL APPLICATIONS

REHAU'S premium window profiles allow for a variety of window styles. This, combined with EliteTec's proven reliability, makes it the profile of choice for residential and industrial new builds and retro-fit projects.

REHAU offers an energy saving, low maintenance and sound dampening profile. It is available in white or in foiled Golden Oak on a caramel base with either single or double glazing. EliteTec can also paint the uPVC profiles. Please contact us for our range of Zobel paint colours.

The following windows and doors can be manufactured:

ELITETEC uPVC DOORS AND WINDOWS OFFICE AND RESIDENTIAL APPLICATIONS

EliteTec's uPVC doors and windows are manufactured to suit customer requirements. A wide variety of options are available for doors, such as:

- French doors
- Inline sliding doors
- Stable doors
- Multifold doors

uPVC doors and windows are weather resistant and thermally efficient due to their insulating characteristics.

REHAU's uPVC doors and windows are suitable to even the harshest climate in South Africa, as they do not warp, rot or need sanding or painting.

The door and window profiles have steel reinforcements for increased stability and security.
